tek smart | Digital Signage Solutions

Product Catalogue 2015

About Us

Digital signage provides information, generates customer feedback, encourages interaction, and entertains. It can promote your products and paying advertisers' products too.

Digital signage makes people notice. It makes them read, watch or hear whatever you've got to say.

What kind of digital signage do you need?

Teksmart has been designing, manufacturing and selling digital signage since 2008. And we keep developing new signage, with new features and capabilities, because we know there isn't any one-size-fits-all solution. No one waiting room or restaurant or promoter has quite the same needs as another.

That's great news for you. It means that:

1. You can choose from a huge range of digital signage solutions
2. If we haven't got exactly what you need, we can custom-make your digital sign for you

From indoor wall-mounted screens to outdoor freestanding units, from standalones to multi-site digital networks, we'll help you find the screen that fits your requirements.

Just the facts

- Teksmart is a privately owned British company, established in 2008
- We manufacture and distribute our own products
- We work with a wide range of businesses from SMEs to blue chips

Meeting your requirements

You'll enjoy a top quality product at an unbelievable price, and you'll enjoy our proper customer service and after sales service too. We're here to help you find the right digital signage and software for your needs.

Indoor Poster Displays (Single Sided)

The Teksmart Poster Display lets you do things your way. You choose the size, you choose the location and then you get creative...

Show images, poster-style ads, graphic and video all in high definition. Everything's controlled by an integrated PC media player, with built-in Wi-Fi. Using the software supplied it's easy to change content whenever you want. Our Poster Display unit will help you promote, sell, educate and entertain.

Available in a wide range of sizes: 7", 10", 15", 19", 22", 26", 32", 42", 47", 55", 65", 70" and 80". Each display has in-built speakers and comes with a remote control and slim-line wall mount bracket.

Features:

- Built for 24/7 commercial use
- High definition screen with a wide viewing angle
- Integrated 'dual core processor' PC media player with built in Wi-Fi
- Powered by Android® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Can be installed in either landscape or portrait orientation
- The installation wall mount bracket has a locking feature for maximum security
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Hospitals
- Department stores
- Shopping centres
- Airports
- Universities
- Cinemas
- Gyms
- Restaurants

Indoor Poster Displays (Dual Sided)

How much space have you got to spare? With screen sizes including 32", 42", 47" and 55" you can make some creative use of that space with the Teksmart Indoor Poster Display, our glass-fronted, Dual Sided digital sign.

Double sided means double the attention. They'll see your sign whichever way they're going. You can even upload different media files and videos on each side. And you get the reassurance of knowing these screens will catch everyone's attention.

Everything's controlled by an integrated PC media player, and using the software supplied it's easy to change content whenever you want. Each display has in-built speakers and comes with a remote control and secure ceiling mount bracket.

Features:

- Built for 24/7 commercial use
- High definition screens with wide viewing angles
- Integrated 'dual core processor' PC media player with built in Wi-Fi
- Powered by Android® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Can be installed in either landscape or portrait orientation
- The installation bracket has a locking feature for maximum security
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Hospitals
- Department stores
- Shopping centres
- Airports
- Universities
- Cinemas
- Gyms
- Restaurants

Indoor Freestanding Displays (Single Sided)

Digital display screens are great. Or rather they can be, if they're put in the right place, and people can actually see them clearly. The Teksmart Indoor Freestanding Display is especially slim and elegant, and crucially, it's freestanding. So it's designed to fit in just about anywhere. You choose the optimum spot and make the biggest impact with your choice of eye-catching pictures, graphics and media files.

Available in a wide range of sizes: 42", 47", 55", 65", 70" and 80", each display has built-in speakers and comes with a remote control.

With its integrated Intel® Core i3 PC media player, Windows® operating system and no hassle installation, this is the ultimate out-of-the-box solution.

Features:

- Built for 24/7 commercial use
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the rear

Applications:

- Reception areas
- Schools
- Showrooms
- Exhibition centres
- Shopping centres
- Cinemas
- Conference halls
- Hotel lobbies

Indoor Freestanding Displays (Dual Sided)

Digital Display units are an excellent source of information. They draw attention and they can inform, educate and entertain.

But they can be limited. One screen, one message. Great if everyone in your lobby, shop or concourse always walks in the same direction! So for businesses whose customers walk both ways, here's the screen to suit: the beautifully slim and chic Freestanding Dual-Sided Display Unit from Teksmart.

Available in a wide range of sizes: 42", 47", 55" and 65", each display has in-built speakers and comes with a remote control.

Features:

- Built for 24/7 commercial use
- High definition screens with wide viewing angles
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the side

Applications:

- Reception areas
- Schools
- Showrooms
- Exhibition centres
- Shopping centres
- Cinemas
- Conference halls
- Hotel lobbies

Interactive Tablets

Everyone loves the tablet. It's portable and practical, but let's face it, most models aren't all that great in a commercial environment. The Teksmart Interactive Tablet range is different...

Each model is wonderfully stylish and features an elegant glass front with rounded corners. The slim-line body is amazingly robust too. Rest assured, once it's up, it isn't going anywhere!

Available in a wide range of sizes: 7", 10", 15", 19", 22" and 26", each tablet has in-built speakers and comes with a remote control. Best of all, each model comes with the installation brackets you need to fit them easily and securely to the counter, wall or floor.

Features:

- Built for 24/7 commercial use
- Interactive touch screen
- High definition screen with a wide viewing angle
- Integrated 'dual core processor' PC media player with built in Wi-Fi
- Powered by Android® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Can be installed in either landscape or portrait orientation
- The installation bracket has a locking feature for maximum security
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Supermarkets
- Restaurants
- Showrooms
- Department stores
- Exhibition displays
- Reception areas
- Hotel lobbies
- Airports

Indoor Interactive Kiosks

From websites, to kiosks, the way we all provide information is changing. If we want people to get real benefit from our insights, we make information graphical and interactive.

The Teksmart range of Freestanding Interactive Kiosks is built clever, with a powerful Intel Core i3 PC media player and built-in Wi-Fi. Available in a wide range of sizes: 42", 47", 55" and 65, each display has in-built speakers and comes with a remote control.

You can get graphical. You can use media files. And your customers can interact with the Kiosk to get all the information they need.

Features:

- Built for 24/7 commercial use
- Interactive touch screen
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the rear

Applications:

- Shopping centres
- Department stores
- Showrooms
- Airports
- Train/bus stations
- Museums
- Hotel lobbies
- Hospitals

Indoor Interactive Information Stands

The way we all deliver information needs to change to reflect our environment. Instead of catering to every visitor at once, you sometimes need to give some time to the individual.

Teksmart's Interactive Information Stand is a sleekly elegant unit with a touch screen. Its powerful PC media player powered by an Intel Core i3 processor with Windows operating system can provide information, imagery, music and video with ease. While it's ergonomic design invites interaction.

Available in a variety of sizes (42", 47" and 55") and colour finishes (gloss black and arctic white), each display has in-built speakers and comes with a remote control.

Features:

- Built for 24/7 commercial use
- Interactive touch screen
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the rear

Interactive Smart Screens (Wall Mounted)

What's so smart about the Teksmart Interactive Smart Screen? It's got a powerful integrated Intel Core i3 processor with built in Wi-Fi. But that's just the start. Need some more detail? Just pinch in and bring things into close focus. Need a broader perspective? Just zoom out. You can make and play presentations. Then pause them. Or annotate them.

Uniquely, Teksmart supply their Interactive Smart Screen range with state-of-the-art interactive whiteboard software, turning your display into a multi-functional presentation tool for classrooms and boardrooms.

Available in a wide range of sizes: 32", 42", 47", 55", 65", 70" and 80". Each screen has in-built speakers and comes with a remote control and slim-line wall mount bracket.

Features:

- Built for commercial use
- Interactive touch screen
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Includes whiteboard software turning your display into an interactive presentation tool
- Supplied with cloud-based digital signage software for advanced content management
- Can be installed in either landscape or portrait orientation
- The installation wall mount bracket has a locking feature for maximum security
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- School classrooms
- Lecture halls
- Training or activity rooms
- Corporate boardrooms
- Business centres
- Broadcasting studios
- Sports coaching facilities
- Exhibition displays

Interactive Smart Screens (Freestanding)

The Freestanding Interactive Smart Screen from Teksmart is a go-anywhere, do anything solution for small businesses, schools, universities, training rooms and lecture halls.

It's light and portable. So you can move it here, there and everywhere with ease. You can change orientation too (mid presentation if you like). Available in screen sizes: 32" and 42", each display has in-built speakers and comes with a remote control.

Rotatable screen, multiple inputs, interactive whiteboard software and Intel Core i3 processor give you the power and the capability to achieve more.

Features:

- Built for commercial use
- Interactive touch screen
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Includes whiteboard software turning your display into an interactive presentation tool
- Supplied with cloud-based digital signage software for advanced content management
- Rotatable screen can be positioned to either landscape or portrait orientation
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the rear

Applications:

- School classrooms
- Lecture halls
- Training or activity rooms
- Corporate boardrooms
- Business centres
- Broadcasting studios
- Sports coaching facilities
- Exhibition displays

Interactive Coffee Tables

The stunning Interactive Coffee Table is here. Sleek, elegant and just a little bit futuristic, the Touch Table incorporates smart software, Intel Core i3 PC Media Player and Windows operating system so you can play media files, get online and wow an audience.

So what are you going to do with yours? Use it as a display table? Use it for presentations? Displays? Testimonials? Case studies? Logos? Inspirational quotes? Videos? Better yet, come up with something completely unique...

Available in a variety of sizes (32", 42", 47" and 55") and colour finishes (gloss black and arctic white), each display has in-built speakers and comes with a remote control.

Features:

- Built for commercial use
- Interactive touch screen
- High definition screen with a wide viewing angle
- IP23 waterproof construction (so protected against surface spills)
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the rear

Applications:

- Reception areas
- Waiting rooms
- Showrooms
- Museums
- Restaurants
- Travel agents
- Estate agents
- Hotel lobbies

Interactive Cyber Tables

The amazing Cyber Table has grown up. Literally. With its extendable legs, it's not just the world's most amazing coffee table any more.

The Teksmart Cyber Table is a work-desk with Wi-Fi. Or an information desk with Intel Core i3 processing power and ideas above its station. It's whatever you want it to be. But it always makes a statement, raises interest and invites interaction. Use it well...

Available in a range of sizes (32", 42", 47" and 55") and colours (gloss black and arctic white), each display has built-in speakers and comes with a remote control.

Features:

- Built for commercial use
- Interactive touch screen
- High definition screen with a wide viewing angle
- IP23 waterproof construction (so protected against surface spills)
- Extendable legs allow you to easily adjust the height
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the rear

Window Poster Displays

Isn't it nice when great technology comes all ready to use, straight out of the box? Just like the Teksmart Window Poster Display...

It's easy to install: floor, wall or ceiling – you choose. It looks beautiful too. The super-slim frame is going to attract attention even before you fire up the Intel® Core i3 Processor PC media player and get creative. Designed for videos, menus, posters, ads and more, this is a high-brightness unit that'll outshine the sun's glare.

Available in a wide range of sizes: 22", 26", 32", 42", 47", 55", 65", 70" and 80". Each display has in-built speakers, comes with a remote control and installation bracket of your choice: wall mounted, ceiling mounted or freestanding.

Features:

- Built for 24/7 commercial use
- High brightness screen for exceptional picture quality in direct sunlight
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Can be installed in either landscape or portrait orientation
- The installation bracket has a locking feature for maximum security
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Restaurants
- Department stores
- Shopping centres
- Museums
- Showrooms
- Estate agents
- Travel agents
- Gyms

Window Interactive Displays

The whole job of a screen like the Teksmart Interactive Window Display is to attract attention. Job done. With its smooth, sleek frame, this is a gorgeous digital display with an integrated PC media player and all the bells and whistles. But there's even more to it than that...

It comes with a unique interactive film. Just put it over the interior glass and customers and passers-by can actually interact with the screen on the other side of the glass. You've got their attention alright!

Available in a wide range of sizes: 22", 26", 32", 42", 47", 55", 65", 70" and 80". Each display has in-built speakers, and is supplied with a remote control and either a wall-mount, freestanding or ceiling-mount installation bracket (depending on your requirement).

Features:

- Built for 24/7 commercial use
- Interactive touch screen
- High brightness screen for exceptional picture quality in direct sunlight
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Can be installed in either landscape or portrait orientation
- The installation bracket has a locking feature for maximum security
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Restaurants
- Department stores
- Shopping centres
- Museums
- Showrooms
- Estate agents
- Travel agents
- Gyms

Magic-Mirror Poster Displays

The Teksmart Magic-Mirror Poster Display really does look like a beautiful mirror. But it's also a clever display screen with an integrated media player for content that you can programme and control.

Because this is such a beautiful looking display screen – nothing like a conventional promotional screen – it's the perfect choice for chic and stylish locations. Use it anywhere that you want to catch peoples' attention, but don't want to disrupt the beautiful look you've created. And because it's built to exacting safety specifications, it can even be used in a bathroom.

Available in a wide range of sizes: 15", 19", 22", 27", 32", 42", 46", 55" and 65", each display comes with external speakers, a remote control and an installation bracket.

Features:

- Built for 24/7 commercial use
- Magic-Mirror screen finish
- High definition screen with a wide viewing angle
- Integrated 'dual core processor' PC media player with built in Wi-Fi
- Powered by Android® operating system
- IP65 construction and heated screen makes it fully waterproof and mist-proof
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Can be installed in-wall or on-wall and in either landscape or portrait orientation
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Restaurants
- Reception areas
- Hotel lobbies
- Gyms
- Washrooms
- Department stores
- Showrooms
- Corporate boardrooms

Magic-Mirror Freestanding Displays

This is the beautiful freestanding Magic-Mirror. The gorgeous mirrored surface makes it an eye-catching embellishment for offices, lobbies and retail environments. But of course this is also an amazingly clever display screen, complete with integrated PC multi-media player.

You can create and control some powerful, persuasive content. Just imagine the impact it will have... Switch on and you'll amaze an audience. The Freestanding Mirror Display is the perfect match of form and function, technology and beauty.

Available in a range of sizes including 42", 47" and 55, each display has in-built speakers and comes with a remote control.

Features:

- Built for 24/7 commercial use
- Magic-Mirror screen finish
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the rear

Applications:

- Restaurants
- Reception areas
- Hotel lobbies
- Gyms
- Washrooms
- Department stores
- Showrooms
- Corporate boardrooms

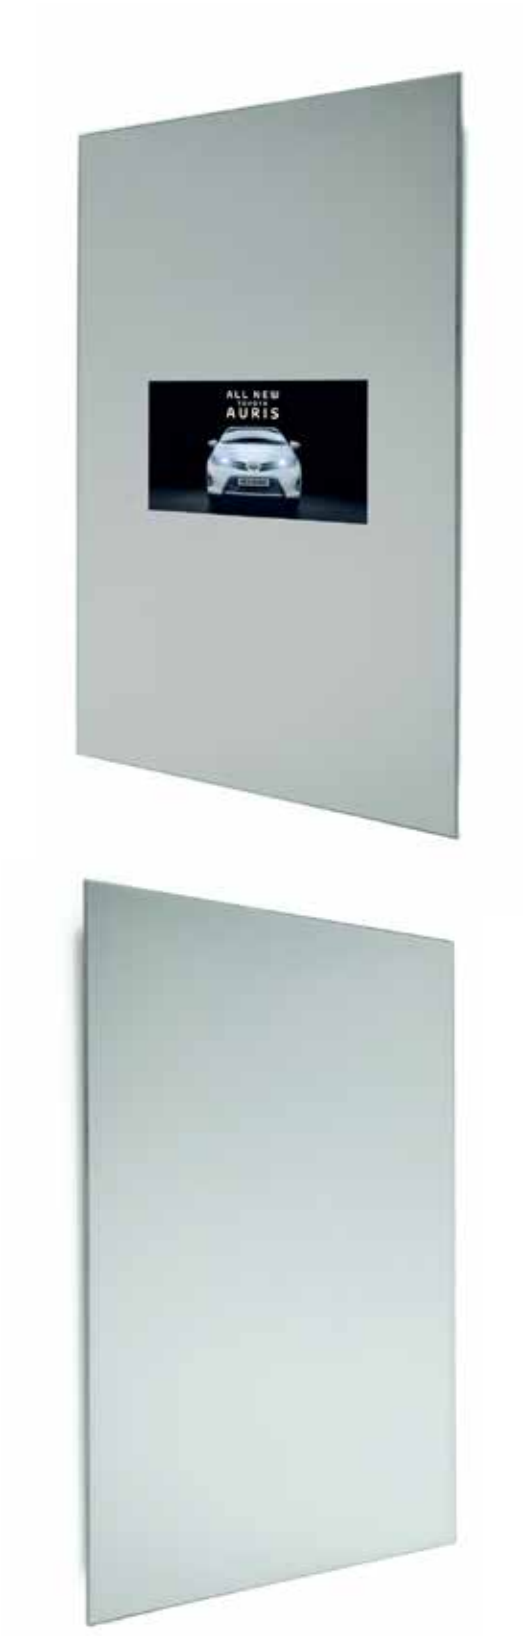
Bespoke Magic-Mirror Displays



This amazing mirror technology lets you display ads and play custom multi-media content, all on the surface of your beautiful mirror screen. As well as your own bespoke content, you can specify what size and shape of mirror you want so that it fits seamlessly in any setting, from office to retail environment to bathroom (it's waterproof).

You can also specify what size digital display you require – 15", 19", 22", 27", 32", 42", 46", 55" or 65". Each display comes with external speakers, a remote control and an installation bracket.

The Magic-Mirror displays makes presenting any information more surprising, more effective and thanks to its incredible good looks, it does it all with great style.

Features:

- Built for 24/7 commercial use
- Custom made mirror to suit any size requirement
- Magic-Mirror screen finish
- High definition screen with a wide viewing angle
- Integrated 'dual core processor' PC media player with built in Wi-Fi
- Powered by Android® operating system
- IP65 construction and heated screen makes it fully waterproof and mist-proof
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Can be installed in-wall or on-wall and in either landscape or portrait orientation
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Restaurants
- Reception areas
- Hotel lobbies
- Gyms
- Washrooms
- Department stores
- Showrooms
- Corporate boardrooms

Indoor LCD Video Walls

You can't ignore a video wall. But size isn't everything. Your video wall still needs to be able to wow them with its great content as well as its great size...

With its built-in media player, the Teksmart Video Wall has got the power and the capability to impress. The software is easy to use, so you can create presentations, videos and graphics that'll stop crowds in their tracks. All in high definition.

Best of all, you find the space and using our 46" or 55" panels we'll customise your video wall to match your requirements for a perfect fit. We also offer a range of screen brightness options including regular, high and super-bright.

Features:

- Built for 24/7 commercial use
- Custom made to suit any size requirement
- High definition screens with wide viewing angles
- Super narrow bezels give a virtually seamless appearance
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the front or rear

Applications:

- Shopping centres
- Department stores
- Showrooms
- Train/bus stations
- Airports
- Museums
- Cinemas
- Exhibition centres

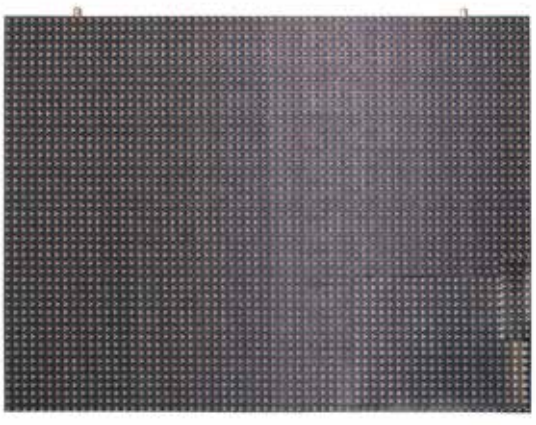
Indoor LED Screens



It is big, it is clever – and it knows it! Tell us what size you want and based on the versatile nature of our modular panels we'll customise your LED screen to suit.

The Teksmart LED Screen brings superior picture quality to the big stage. Better than plasma, better than projection, the colours are vibrant and true, the definition is pin-sharp. And that means you can really put it through its paces: create and show fast moving video and elaborate graphics. You can amaze anyone who sees it.

We offer a wide range of pixel pitch options including 4mm, 5mm, 6mm, 8mm and 10mm.

Features:

- Built for 24/7 commercial use
- Custom made to suit any size requirement
- High-resolution and high-brightness screens with wide viewing angles
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the front or rear

Applications:

- Shopping centres
- Train/bus stations
- Airports
- Stadiums
- Museums
- Visitor attractions
- Showrooms
- Department stores

Outdoor Displays

Outdoor Poster Displays (Single Sided)

So, you're going to advertise, promote, inform or entertain with an Outdoor Poster Display... great. Our customers usually have three big needs...

(1) Security: The Teksmart Displays are encased in a robust and hardwearing casing. (2) Appearance: Vandal proof and weather proof yes, but also compact and eye-catching. (3) Easy to operate: They work out of the box, while the Windows-operated PC media player makes keeping them uploaded with new and exciting content an absolute doddle.

Available in a wide range of sizes: 22", 26", 32", 42", 47", 55", 65", 70" and 80". Each display has in-built speakers, comes with a remote control and an installation bracket of your choice: wall mounted, ceiling mounted or freestanding.

Features:

- Built for 24/7 commercial use
- Ruggedised 'anti-vandal' casing for demanding outdoor application
- High brightness screen for exceptional picture quality in direct sunlight
- IP65 waterproof rating to withstand harshest of weather conditions
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Can be installed in either landscape or portrait orientation
- The installation bracket has a locking feature for maximum security
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Train/bus stations
- Supermarkets
- Petrol stations
- Shopping centres
- Restaurants
- Stadiums
- Airports
- Estate agents

Outdoor Poster Displays (Dual Sided)

You can reach a lot of people with a Dual Sided Poster Display. Instead of missing half your potential audience with a Single Sided Display, you can make sure people approaching from both directions get to see and enjoy your latest advert or promotion.

And thanks to the integrated PC media player, digital signage software and built-in Wi-Fi, uploading exciting content is easy and intuitive.

Available in a wide range of sizes: 22", 26", 32", 42", 47", 55", 65", 70" and 80". Each display has in-built speakers, comes with a remote control and either a wall mounted, ceiling mounted or freestanding installation bracket (depending on your requirement).

Features:

- Built for 24/7 commercial use
- Ruggedised 'anti-vandal' casing for demanding outdoor application
- High brightness screens for exceptional picture quality in direct sunlight
- IP65 waterproof rating to withstand harshest of weather conditions
- High definition screens with wide viewing angles
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management

Outdoor Freestanding Displays (Single Sided)

There's something hard to resist about the Teksmart Outdoor Freestanding Display. The slim-line build and cool, chic design is a big part of the attraction. But we love the fact that, they can catch people by surprise. This isn't a window display or a wall-display, it's a free-standing unit.

Load them up with great content, or even live feeds via the high-powered integrated PC media player and draw a crowd. Don't worry. They're built tough: rugged, hard-wearing and vandal-proof.

Available in a wide range of sizes: 32", 42", 47", 55", 65", 70" and 80", each display has in-built speakers and comes with a remote control.

Features:

- Built for 24/7 commercial use
- Ruggedised 'anti-vandal' casing for demanding outdoor application
- High brightness screen for exceptional picture quality in direct sunlight
- IP65 waterproof rating to withstand harshest of weather conditions
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Inputs are kept secure within a lock-protected compartment on the rear
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Train/bus stations
- Supermarkets
- Shopping centres
- Petrol stations
- Amusement parks
- Universities
- Airports
- Stadiums

Outdoor Freestanding Displays (Dual Sided)

Put some display screens outside and they might as well not be there when the sun comes out. Not this one. Teksmart's freestanding, high brightness screens give exceptional picture quality, even in direct sunlight.

And because they're double-sided, everyone sees them. Security? Teksmart's Freestanding Outdoor Displays are built to withstand vandalism and the worst of the great British weather. And to make sure they stay put, you can even drill them into the ground.

Available in a wide range of sizes: 32", 42", 47", 55", 65", 70" and 80", each display has in-built speakers and comes with a remote control.

Features:

- Built for 24/7 commercial use
- Ruggedised 'anti-vandal' casing for demanding outdoor application
- High brightness screens for exceptional picture quality in direct sunlight
- IP65 waterproof rating to withstand harshest of weather conditions
- High definition screens with wide viewing angles
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Plug and play capabilities for basic content management
- Inputs are kept secure within a lock-protected compartment on the rear
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Train/bus stations
- Supermarkets
- Shopping centres
- Petrol stations
- Amusement parks
- Universities
- Airports
- Stadiums

Outdoor Interactive Displays (Single Sided)

If you're like us, and you see a digital sign out and about, you want to use it. And that's what the Teksmart range of Outdoor Interactive Displays is all about. Great-looking screens that are inviting and easy to use. You can give and get information, you can promote and entertain.

The state-of-the-art integrated media player means you can make it super-slick too. Great visuals and seamless video – all quick and easy to control straight out of the box.

Available in a wide range of sizes: 22", 26", 32", 42", 47", 55", 65", 70" and 80". Each display has in-built speakers, and is supplied with a remote control and either a wall-mount, freestanding or ceiling-mount installation bracket.

Features:

- Built for 24/7 commercial use
- Interactive touch screen
- Ruggedised 'anti-vandal' casing for demanding outdoor application
- High brightness screen for exceptional picture quality in direct sunlight
- IP65 waterproof rating to withstand harshest of weather conditions
- High definition screen with a wide viewing angle
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Can be installed in either landscape or portrait orientation
- The installation bracket has a locking feature for maximum security
- Includes multiple inputs should you wish to connect screen to an external source

Applications:

- Train/bus stations
- Airports
- Shopping centres
- Stadiums
- Restaurants
- Estate agents
- Amusement parks
- Universities

Outdoor Interactive Displays (Dual Sided)

When you've got an interactive outdoor display, you want people to use it. That's easier than ever if it's a Dual Sided Interactive Display Screen...

One person uses one side. Other people wander over to see what's happening, see that it's dual-sided and start using the other side. Of course it helps that this is a display that people are going to notice with its smooth corners and stylish design. Get people involved. Get them interested. Get them interacting.

Available in a wide range of sizes: 22", 26", 32", 42", 47", 55", 65", 70" and 80". Each display has in-built speakers, and is supplied with a remote control and the option of either a wall-mount, freestanding or ceiling-mount installation bracket.

Features:

- Built for 24/7 commercial use
- Interactive touch screen
- Ruggedised 'anti-vandal' casing for demanding outdoor application
- High brightness screens for exceptional picture quality in direct sunlight

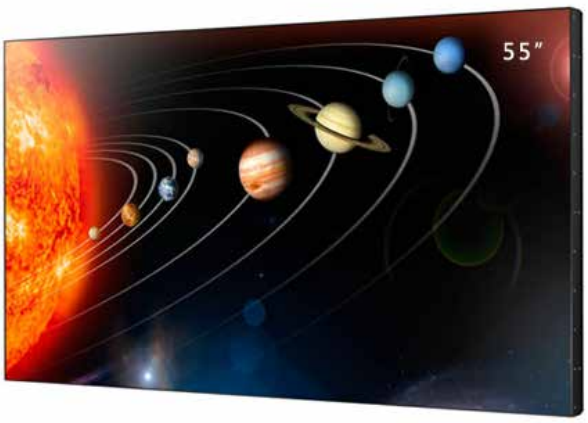
Outdoor LCD Video Walls



Teksmart's Outdoor LCD Video Wall is designed to make a big impression...

Powerful, adaptable and rugged, the Video Wall looks great from any angle and in any brightness. You just have to put it through its paces... Your Video Wall gives you the capability to deliver amazing graphics and videos. The software's all here, and it's incredibly easy to use.

Better yet, when you choose your perfect size, Teksmart will custom-make the Video Wall to fit seamlessly into the required space. Based on the modular design of our panels we can achieve virtually any size or shape of screen.

Features:

- Built for 24/7 commercial use
- Custom made to suit any size requirement
- Ruggedised 'anti-vandal' casing for demanding outdoor application
- High brightness screens for exceptional picture quality in direct sunlight
- IP65 waterproof rating to withstand harshest of weather conditions
- High definition screens with wide viewing angles
- Super narrow bezels give a virtually seamless appearance
- Embedded 'Intel® Core i3 Processor' PC media player with built in Wi-Fi
- Powered by Windows® operating system
- Supplied with cloud-based digital signage software for advanced content management
- Includes multiple inputs should you wish to connect screen to an external source
- Inputs are kept secure within a lock-protected compartment on the front or rear

Applications:

- Shopping centres
- Department stores
- Showrooms
- Stadiums
- Train/bus stations
- Airports
- Museums
- Cinemas

Custom Displays

Custom Digital Signage

You've got a great range of display screens, interactive displays and tablets to choose from, but suppose you need something a bit more bespoke?

We can develop a unique solution just for you. Before we even start coming up with ideas, our designers and account managers will review your brand and corporate culture. We'll get your take on things too. And we'll look at your competitors' solutions. It will help us identify your business requirements and desired outcomes. Here's how the process works in a bit more detail:

Project brief and conceptual planning:

How do customers interact with your brand and competitors? How are consumer trends affecting your industry? What's in demand? By tapping in to customer needs, we give them intuitive 'ways in' to get the information they need. It's all about simplifying the consumer journey. And we'll try different scenarios until we find the one that fits.

Creative design and product development:

Time to get creative... We combine our expertise in design and technology to create a display piece that will attract and engage your customers. If you need a specialised screen size or shape, our product designers and engineers will deliver top-of-the-line solutions to meet every need.

Content development:

Designing the display piece is only half the battle. What about the content? From slick videos to slideshows to custom apps, our interactive design team will create rich content to bring potential customers right up to your display.

Production and logistics:

We can handle any size of manufacturing run. And everything is rigorously quality-checked before we pack, ship and track your product all the way to delivery.

There's no one else in the development chain. It's all taken care of by the Teksmart team. And you'll have your own project / account manager to keep you up-to-date at every stage of the process.
